Ralph Pallesen Purchases Carbon Auto Service

Mr. Ralph Pallesen of Drumheller has completed arrangements for the purchase of the Carbon Auto Service garage from Mr. Claude Cressman and has now taken over complete control of the business. Mr. Pallesen comes well recommended as a mechanic, having had diesel mechanic experience in the air force, two years as a mechanic at Macleod and three years as head mechanic at Westergaard Motors at Drumheller.

Mr. Pallesen is a son of Mr. Otto Pallesen of the Hesketh district, and with his wife and family has taken up residence in the Dobler house in Carbon.

Vivian Sigmund Places Third in Wheat Class At Chicago Grain Fair

Vivian Sigmund, daughter of Mr. and Mrs. Art Stgmund who farm 10 miles northeast of Carbon, was among the top winners in the hard red wheat class at the recent Chicago International Hay & Grain Fair. Miss Sigmund placed third with her sample of Marquis wheat, grown on her parents' farm from seed obtained from the P. J. Rock registered seed farm.

A member of the Carbon Junior Grain Club, she is also taking part in work of the Carbon Junior Beef Club.

Her wheat this year placed first in the seed fair for the Carbon Club, second in the

Drumheller district fair, and sixth at the Toronto Royal Winter Fair.

Vivian cared for her plot, located a quarter mile from her farm home, receiving 94 per cent for condition. To obtain her prize-winning sample, she cut the wheat with a binder and threshed it. The picking of kernels was done without use of a magnifying glass. She polished the grain with the aid of wax paper and a nylon stocking.

She gave much credit to N. F. Bell, district agriculturist of Drumheller, for his instructions in completing her exhibit. She has another year in which she can compete, and intends to try for the world championship next year.

The Sigmunds came to this province from North Dakota 20 years ago.

A Successful Season

TRANSPORTATION PLAYS an important part in the marketing of Western Canada's wheat crop and the movement of grain from the prairies to the ships which carry it to the world markets is a major event in the economic life of this country each year. While a large part of the crop is shipped from the great wheat terminals at Port Arthur and Fort William, an increasing amount is carried from the port of Churchill. Although this Western sea port has not yet been developed to the extent to which early advocates of the project aspired, it is fulfilling the hopes of those who believed that this ocean port, close to the grain fields of the prairies, could be developed.

Past Record Is Broken

A report on activity at the port of Churchill during the season just past shows that the first vessel called on the 8th of August and that the port was closed to navigation on October 8th. During that time twenty-one vessels called at the port and 7,278,443 bushels of wheat moved through it. This was larger than the record amount shipped in 1950, in which year 6,767,743 bushels were shipped by the Hudson's Bay route. Storage elevators were filled to capacity and there were 540 cars of grain at the port or en route to it when the first vessel arrived this season. Mr. W. C. McNamara of the Canadian Wheat Board reported that at all times there were sufficient supplies of wheat to meet the requirements of incoming ships. About 700,000 bushels were left in the elevators after the port was closed for the season.

Elevators To Be Utilized

Since the close of navigation more wheat has been directed to Churchill by the Canadian Wheat Board and it is expected that the elevators there will be used this winter to their full capacity, which is 2,500,000 bushels. The port of Churchill has for many years been a subject of controversy between conflicting interests in Canada, but experience has shown that it is of practical value in shipping goods to and from points in Western Canada. It is obvious that the long rail haul between the prairies and the sea ports on the east and west coasts adds to the cost of the items which are transported. However, the shortness of the season at the port of Churchill presents an obstacle to that port proving of the value which it otherwise might. It is interesting to know of the extent to which it is operating at the present time and the increasing activity there is encouraging to those who have believed in the future of this northern sea port.

Two Motorists Escape Injury From Falling Tree

FLIN FLON, Man.—Two motorists narrowly escaped injury while travelling in the front seat of a car a few miles south of town.

Suddenly a huge tree fell across the hood of the car, bringing the vehicle to a dead stop. On the roadside they saw a frantic woodsman still clutching his axe, as he watched the two men get out of the car unhurt.

The wood cutter, not being experienced as a tree-feller, allowed the 30-foot tree to fall toward the highway just as the car was passing.

MONEY-SAVING MAIN DISH

with **INGERSOLL** cheese

with **INGERSOLL BABY ROLL Topping**

1 lb. any fish fillet; 1/4 cup butter or margarine melted; 1/4 cup chopped onion; 1/2 cup chopped celery or carrot; 2 cups hot mashed potatoes; 1/2 tsp. salt; dash pepper; 2 oz. cubed and 2 oz. shredded **INGERSOLL BABY ROLL CHEESE**.

Spread fish with melted butter or margarine on both sides, season with salt, pepper. Bake in hot oven at 425 degrees F. for 10 minutes, or until fish heated through. Sauté chopped onion and celery (or carrot), in melted butter until tender but not brown. Mix with all remaining ingredients except shredded cheese. Quickly pile dressing on top of hot fish and sprinkle with the shredded **INGERSOLL BABY ROLL CHEESE**. Return to oven for 10 to 20 minutes, (according to thickness of fish), to cook fish and melt and brown cheese. 4 servings.

Serve plenty of **INGERSOLL** CHEESE dishes... a wonderful way to cut down the food bills and still give your family flavorful, nutritious main courses. Ingersoll is made from fine Ontario cheddar recipes resulting from over 60 years in ageing and blending fine cheese.

Always ask for **INGERSOLL** a cheese for every taste

Funny and Otherwise

The way to get along with women is to let them think they are having their own way, and the way to do that is to let them have it.

Patient—Joe looks a lot better after his operation. What did you operate on him for?

Doctor—We took away a brass rail that had been pressing against his instep for years.

The pretty school teacher was trying to tell her pupils about the advent of spring.

"As I stood on the station platform one sunny April morning waiting for my train I felt something lightly caressing my cheek. Can anyone tell me what it was?" she asked.

"The station-master's moustache?" suggested the small bad boy of the class.

Scotty (hoping for free advice): "Doctor, what should I do for a sprained ankle?"

Doctor (also a Scot): "Limp!"

"But madam, this hat goes perfectly with your delicate complexion."

"Maybe. But I wasn't looking delicate until you mentioned the price."

"One of the girls has fainted, sir, and they're calling for sal volatile."

"Well, don't bother me — find her."

Hyde Park orator: "Having said all I am going to say, I will return to what I was comin' to when I was interrupted and repeat what I was prevented from sayin'."

Caller—Little boy, do both of your dogs have licences?

Boy—Yes sir; they're just covered with them.

Sunspots, claims one writer, affect the stock market. What we want to know is how do you tell the difference between "buy" and "sell" spots.

ODDITIES In The News

LONDON.—Post office clerks here have addressed a request to authorities to issue hexagonal pencils. They said round pencils tend to roll off their desks.

Mrs. J. Maclean, a florist, pulled off a fabulous longshot at Sydney, Australia. With mathematical odds stacked 9,999,800,001 to 1 against her, she won both first and second prizes in the New South Wales state lottery. She shared the first prize of \$13,400 with a friend. The second prize of \$2,240 she split with her family.

Lois Lambrecht of Lige, Belgium, quarrelled with her boy friend, apparently decided suicide was the only way out, and jumped from the window of her third-floor apartment. But instead of meeting death, she landed in the arms of her startled suitor passing beneath the window on his way home. A kiss ended the quarrel.

Rev. E. C. L. Overdon, pastor in the village of Aveley, England, has a tip for parishioners. He collects dusters to keep his church bright and clean and says that discarded vests make the best polishing cloths.

A pupil leaving college at Newcastle, Eng., after three years' study was presented with a book as tribute to his enthusiasm in mastering the French language. He is George Firstone, a 73-year-old grandfather.

Mrs. Robert Ebert of Wooster, O., lives close to the Wooster College golf course, because it's handy for her hobby. She collects lost golf balls, has 1,449 of the things. She plays golf herself, but she doesn't lose any balls.

BIG CHRISTMAS

LETHBRIDGE, Alta. — Mr. and Mrs. Leonard G. Bantin celebrate their 60th wedding anniversary the day after Christmas. Mr. Bantin, 89, came to Alberta as a homesteader in 1902.

Sample Of Canada's Role In Defence Plan

Reminiscent of embarkation scenes during Second World War, these members of Canada's crack 410 fighter squadron board H.M.C.S. Magnificent, bound for duty in the U.K. The Cougar squadron, which is carrying its own F-86 Sabre jets overseas, will form part of the newly created No. 1 Canadian Fighter Wing at North Luffenham in England, and will be available for duty as part of the Integrated Force under General Eisenhower. Left to right are: Aircraftman James Goodwin, of Paradise, N.S.; Leading Aircraftman Rodrick McLaren, of Charlottetown, P.E.I.; Corporal Joseph Desroches, of Rosemere, Que.; Sergeant Michael Brownrigg, of Plantagenet, Ont.; Sgt. Lorne Hawkins, of Winnipeg; L.A.C. Don Beach, of Trossachs, Sask.; Cpl. Doug Laycock, Calgary and Cpl. Bill Copland, Vancouver.—Central Press Canadian.

Edmonton Scientist's Discovery May Save Huge Barley Loss

EDMONTON.—A simple chemical control, discovered by an Edmonton scientist, may save millions of bushels of barley usually lost through the scourge of loose smut. Dr. L. E. Tyner, plant pathologist of the dominion laboratory of plant pathology, a science service division of the Canada department of agriculture, started in 1948 to search for a means of combatting the grain fungus.

He found the means in a chemical known as spergon. Strangely, spergon has been on the market for many years, but as a treatment for pea seed. In commercial form it is a yellow powder with an effective principle as a chloranil.

The effectiveness of this chemical has been confirmed by experiments in the last three years at dominion laboratories in Edmonton, Saskatoon and Winnipeg.

Tests show a smut reduction from 9.7 per cent. in untreated Montcalm barley to zero in properly treated barley. The tests were carried out with several varieties and with the exception of one case where 0.2 per cent. smut was left after treatment, the barley was completely cleaned.

Treating barley seed with the new smut killer requires that the seed first be soaked for about 10 hours in water and then for 48 hours in a two per cent. solution of spergon. The pre-soaking in water softens the seed and allows the chemical to penetrate the embryo where the smut grows.

Unlike other forms of barley smut, loose smut does not attack the outside of the seed but eats out the

heart. With this problem confronting him, Dr. Tyner dropped the idea of using powders and concentrated on solutions.

He tried about 50 chemicals in the solution before he found one that would kill the smut but not the seed.

Until Dr. Tyner discovered the spergon method, the only known way to combat loose smut was the costly hot water method. It entailed mainly a tricky and rigid control of temperature and time. An expensive machine had to be set up in a central location and farmers could have their barley seed cleaned for \$1 to \$1.25 a bushel.

Besides the Montcalm, Dr. Tyner used Newal, Titan, Plush and Glacier varieties, gathered mostly from farms in Alberta and Saskatchewan.

Dr. Tyner carried out his research at the University of Alberta.

Ilka Chase Compares Blue Bonnet — It's Her Favorite!

Want to get good reception? Here's an idea from Ilka Chase. Compare **BLUE BONNET** Margarine with any spread at any price. Like the famous television star and author, you'll love the delicate, sunny-sweet flavor of this fine-quality all vegetable margarine. You'll appreciate **BLUE BONNET's** nutrition. And you'll welcome its real economy. So buy **BLUE BONNET** and get "all 3" — Flavor! Nutrition! Economy! Use it in cooking, on vegetables, as a delicious spread.

BLUE BONNET Margarine is sold in two types — regular economy package with color wafer, and also in the famous **YELLOW QUIK** bag for fast, easy color.

Calgary Girls Must Wait Longer To Claim Find Of Money

CALGARY. — Two unnamed Calgary girls will have to wait another six months to make those dreams of spending unexpected wealth come true.

The girls found a considerable amount of money in the city six months ago, then applied to the police commission to receive the money if it was not claimed.

The practice has been that lost property, when not claimed within six months, be given to the finder.

In this case, the amount of money involved is large, and the police commission has extended the waiting period to a year. British law establishes one year, and the police commission will use this period.

The police department will not release the names of the girls, the amount of the money, or where it was found.

PEGGY

—By Chuck Thurston

"That Others May Live"

By DICK LACOSTE
(CPC Correspondent)

Unheralded and unsung, a small and select group of air force pilots are making military history today on Korea's appendix-shaped peninsula some 7,000 miles from home.

Prior to the Korean action, men wounded in battle had small chance of survival. In World War I, the mortality rate was 8 to 11 out of every 100 wounded men who reached advanced surgical hospitals.

The comparable figure in World War II was 4.5 for every casualty brought back to rear areas. Today, only 2.6 patients out of every 100 reaching the most forward hospitals subsequently pay the supreme sacrifice.

Perhaps the greatest single reason for the decrease in mortality rates in Korea today are the helicopter pilots of the U.S. Third Air Rescue Squadron.

Since the start of the Korean action this hard-hitting intrepid band of selfless and heroic men to date have airlifted more than 2,700 to hospitals, aid stations and to safety. Dozens of Canadians have been among those evacuated.

Often, the squadron's pilots have swooped down behind enemy lines to bring comfort to a combat casualty, give him a chance at life by injections of whole blood or plasma. In some instances, the rescue of combat casualties has been accomplished under fire.

This military manoeuvre strictly is a product of the Korean action. Formerly, combat casualties more often than not died an inglorious death on the battlefields through loss of blood, mortar or machine-gun fire, bayonet thrust or bullet.

Today, thousands of United Nations troops are brought back to rear areas before the enemy even has an opportunity to overrun United Nations positions.

TRY AND STOP ME!

By BENNETT CIERF

In the town square of an English community, a Communist agitator appeared on his bicycle one evening, and after propping his vehicle carefully against a fence, began a fierce harangue. "Don't let the rich keep things that are justly yours," he concluded. "If you want food, take it from the nearest shop. If you want a fur coat, grab one—and the authorities be damned." The crowd dispersed and one minute later the agitator was heard screaming, "Officer! Officer! Some scoundrel has stolen my bicycle."

"SUNDAY KIND OF LOVE"

Gracie Barrie, the pert comedienne at the Normandie, believes that humor that is most appealing to the average man and woman is the kind that gets a chuckle because it's based on everyday incidents.

By example, Gracie recited a few lines from her parody on the song "Sunday Kind of Love", which she does on stage with the melody in the background:

Girls, don't you just adore
That Sunday kind of love—
Hot coffee, hot toast, hot bacon
And a cold husband!

You get nice and comfy in an
easy chair
And he walks over to you—the
man you love
And he picks you up in his
strong manly arms,
And he says,
"You're sitting on my comics!"

HERE'S HEALTH

Junior Jimmie most enjoys
Simple unpretentious toys.
Old pots, a spoon,
some sand, will bring
More fun than some
expensive thing.

Dept. of National Health and Welfare

Rescue Squadron Earns Its Motto

—Central Press Canadian.

Wounded removed by helicopter crew somewhere in Korea.

One of the Third Rescue Squadron's most spectacular mercy missions in this Korean action was that flown by Lt. John J. Najarian of Fresno, Cal.

Najarian recently accomplished the near impossible by landing his Grumman SA-16 Albatross helicopter on the narrow, shallow Taedong river, under heavy enemy fire, to rescue a downed Fifth Air Force pilot.

For this mercy mission, accomplished in darkness and entirely under instrument conditions, the lieutenant was presented with the Distinguished Service Cross by Gen. J. V. Crabb, deputy for operations, Far East Air Forces.

Another heroic helicopter pilot operating in the combat areas also is the squadron's Capt. Lynden B. Thomason. Thomason holds the world's record for individual front-line rescues. In 118 combat missions, Thomason rescued 234 United Nations members.

Challenging Thomason's record is another pilot from the same squadron—First Lt. Elmer Barnes, of Cross-Roads, N.M. His record: 219 critically wounded and downed air-crewmembers.

A third Air Rescue Service pilot who has chalked up an enviable record is First Lt. Michael Angelo Mecca of Throop, Pa. Mecca holds world's record for the helicopter evacuation of the largest number of troops within a single day. In a one-day period, Mecca evacuated 35 United Nations troops from enemy territory.

Other services have their air rescue squadrons but the Third leads them all. With over 950 awards, decorations and medals, it is by far the most decorated rescue outfit in the Far East. The squadron's motto very fittingly is: "That others may live."

CLEVER HORSE

The husband and wife were having breakfast, the former ensconced behind his newspaper.

"You had a very restless night, dear," said his wife, "and what's more, you kept murmuring a woman's name in your sleep. Now who is Daisy?"

"Oh—er," he stammered, "the fact is, my dear, Daisy is a filly I backed yesterday. It won, ten to one, and here is your share." He handed his wife five dollars, and hid himself once more behind his newspaper. In the evening, when he returned to dinner, his wife once more returned to the attack.

"By the way, dear," she said, "you know that horse you backed yesterday?"

"Yes," he grunted.

"Well," she continued, "she rang you up on the 'phone this afternoon."

NORTHERN LAKE

Great Bear Lake has an area of 12,000 square miles, bigger than Lake Erie or Lake Ontario.

On The Side : E. V. Durling

Should lettuce be classed as a flower? Perhaps my old botany teacher should be ashamed of me, but I have always considered lettuce a vegetable. However, I have come in possession of a faded copy of a list headed "Language of Flowers". In this lettuce is included. It says lettuce means: "You are cold."

No Redhead, She

A young woman, who describes herself as a green-gray-eyed redhead, says: "The claim that Cleopatra was a redhaired woman is false. She was a brunette, with a redhaired dyeing job. If Cleo had been a natural redhead Marc Anthony would never have given her the brush-off as he finally did. Also, no redhead would have acted as Cleopatra did then. She begged Anthony to take her back on the ground that he was the father of her twins. A redhaired woman would have more pride than to humble herself like that to a man. And, by the way, they say this particular Cleo was known as Cleopatra the Seventh. Why hasn't something been written about the six other Cleopatras?"

Marciano vs. Louis

Rocky Marciano's victory was played down by many sportscribes by saying in Joe Louis he defeated "a tired old man." I think even if Rock had met Louis when the latter was at his peak, he would have knocked him out. Louis was always easy to hit. But those who hit him didn't hit him hard enough. When Marciano hits them they stay down.

Horses And Women

You can't judge a girl by a photograph. Some of the pin-up girls, whose photographs depict them cooing with "oomph", would leave you cold if you met them personally. If a female is inclined to be disagreeable, conceited and self-centered she can't get to first base with a discerning fellow, even if she has a figure like Jane Russell or Ava Gardner.

To Charm

According to the color psychology experts when a girl wears a blue polka dot dress it has a tendency to put the boss in a good generous mood. Now, and the same experts say that if a school teacher wore a yellow dress she would find her pupils easier to handle. I heard from three school teachers who tried this and it worked.

Asking

Queries from clients. Q. How many bald-headed men are there in the United States. A. Have no figures on the number of men who are completely devoid of hair on top. However, recent statistics reveal there are over ten million men in the U.S. suffering from some form of baldness.

The Acid Test

A 37-year-old feminine subscriber says people usually figure her to be about 24 years of age. She was recently refused admission to one of those dance halls for people of 30 years of age or over. There's an idea for women in their late thirties to test their youthful appearance. Many women in their late thirties think they appear to be in their twenties, but do they. They can find out by trying to get into an "over thirty" people's dance.

Unpopular Gadget

On the market is a remarkable gadget called the tachograph, which, attached to an automobile, makes a record of the car's trip on a chart. Among the details recorded is the speed made by the car throughout the trip. If the driver exceeded the speed limit, it shows on the chart. Also records length of time of all stops made. Can be locked, making it impossible for the driver to open it. At present is used on trucks operating on long distance routes. Many drivers don't like this gadget because it records the length of stops made. This prevents them from tarrying too long at roadside restaurants. Or entertaining feminine companions. Some transcontinental truck drivers are like sailors, they have a girl in every port.

Manitoban Only Veteran Of "Cutty Sark"

WINNIPEG, Man.—Charles A. Sankey of Waskada, Man., 224 miles southwest of here, may be a dryland sailor today, but he's got plenty of water to look back on.

The 87-year-old veteran of the seven seas is one of the few, if not the only, remaining seamen who served aboard the famous clipper ship, "Cutty Sark".

He was a member of the ship's crew for two years when it was setting speed records to and from China and Australia. However, the coming of steam and the opening of the Suez Canal chased the "Cutty Sark" and other clipper ships from the sea.

Sankey took to the sea at an early age. He entered the training ship "Conway" when he was 12 years old, and two years later joined the crew of the "Cutty Sark".

When the "Cutty Sark" ceased to be, he continued his sailor life aboard numerous other ships before age forced him to seek a less strenuous job on land.

Sankey recalls his sailor days to all who care to listen at least once a year. He sets aside Trafalgar Day to spin his yarns, and always celebrates the day by displaying a proud Nelson relic, which he possesses, in a prominent place in his home.

Most British sailor organizations also mark the day, Oct. 21, 1805, when Admiral Nelson scored his great sea victory.

Sankey's relic is part of Nelson's ship "Victory". It is a tray, one of many which were made from copper taken from the "Victory", and which were presented to seamen by the British and Foreign Sailors Society in 1905.

The tray, a foot in diameter, has a picture of Nelson's flagship engraved on it. Also inscribed on the tray are the famous words: "England expects that every man will do his duty."

60 TONS OF ICE EASE GIANT MACHINE TO FLOOR

DETROIT.—Engineers in an automobile plant used 60 tons of ice to solve a problem.

During a model change-over, a 275,000-pound stamping press had to be turned on its side for shipment to another plant.

Workmen stacked 350 cakes of ice behind the press, and tilted the press against it. As the ice melted, the press sank gradually to the floor.

REMINDER

This is the right time to remind everyone that resistance to colds may be built up by good hygienic habits, rest and exercise, and especially in proper diet.

—Central Press Canadian.

ROYAL SCHOOLMARM — Queen Elizabeth "calls the class to order" as she sits at a teacher's desk in a classroom of the Emmanuel Hospital school, London. She was on hand to commemorate the 350th anniversary of the institution.

The defending side went over to the attack on this hand from last year's World Championship match between U.S.A. and Europe. In Room 1 the American North opened Two Diamonds, playing the "Weak Two," but East fearlessly bid Two Spades.

East-West duly reached Four Spades, which can only be made if East guesses the Heart position correctly. North, however, had advertised his weakness in defence, and South sacrificed in Five Diamonds doubled for a loss of 300.

In Room 2 the Swedish North-South got a better result when South opened One Diamond after two passes. West bid One Heart, but a well-judged Three No Trumps by North silenced the opposition. He was one down, a net gain of 250 for Europe.

A KILLER

The open season for foolish people who run car engines in closed garages is here. Remember that carbon monoxide is a killer—don't run a gas engine in a closed building.

A whispering voice can normally be heard 18 to 20 feet away.

THEY SOUGHT FREEDOM . . . FOUND HAPPINESS—The happiest of endings comes to the story of Peter Pirogov and Mrs. Valentino Burnos, both fugitives from oppression, as they announce their engagement in Washington. With them is the daughter of the bride-to-be. Pirogov made newspaper headlines three years ago when, as a former Soviet army pilot, he escaped by flying his plane to Austria. With a fellow-officer, Anatol Basov, he came to the U.S. Mrs. Burnos arrived from an Austrian displaced persons camp 18 months ago.—Central Press Canadian.

TROOPS QUELL CASABLANCA RIOTS AFTER FIVE DIE—French troops loaded in trucks roll into Casablanca following riots which broke out recently when some 1,000 Moroccans armed with knives and stones tried to halt local elections. Five persons were killed and 70 injured before the riots were quelled. Moroccan spokesmen said an advanced election date favored French rulers. Nationalist leaders have submitted demands for Morocco's independence to the United Nations.—Central Press Canadian.

ARABS EXERCISE THEIR SQUATTERS' RIGHTS—Arabs lost no time in setting up a tent amid the wreckage of the yacht "Kangaroo", in which Freddy McEvoy, American playboy, and his French wife were drowned when the craft came to grief off the coast of French Morocco. Circled in background is the mast of the ill-fated yacht.—Central Press Canadian.

MECHANICAL INSURANCE SALESMAN—An innovation at gasoline stations in Germany is this coin-in-the-slot machine from which you can obtain an insurance policy to cover you when taking a passenger in the car. Thirty cents goes in the machine and, presto, out comes the policy for your passenger.—Central Press Canadian.

LOWLY SPUD BROUGHT TOP REWARD—The 1951 maritime potato king, Ira J. MacMillan, of Cardigan, P.E.I., receives his crown from Mrs. D. V. Jones, daughter-in-law of Premier J. Walter Jones of Charlottetown, N.B., while Fraser Ross and F. G. MacLeod, president of Maritime Winter Fair, look on. Twenty years' cultivation of the humble spud proved profitable for Mr. MacMillan, for besides his crown, he won C.I.L. price of \$125 on his sample of "green mountains".—Central Press Canadian.

NEW FRENCH LUXURY LINER LAUNCHED AT DUNKIRK—The largest passenger ship to be built in France since 1931, the Flandre is shown being launched at Dunkirk, France. The 20,300-ton luxury liner is 594 feet long.—Central Press Canadian.

—Central Press Canadian.

WINNER OF NOBEL PEACE PRIZE—Staunch anti-Communist labor campaigner, Leon Jouhaux of France, has been named winner of the Nobel Peace prize for 1951, by Nobel committee of Norway's parliament. The 72-year-old Frenchman seen above, has been a constant target for Red abuse for his activities in transforming French labor movement from a Red "fort" to a potent anti-Communist group. In addition, Jouhaux has been chairman of International Council of United Europe Movement since 1949, and has constantly preached for world peace in speeches to his labor followers.

TAKES OVER OFFICE—Dr. Roberto Urdaneta Arbalaez holds the staff of authority in his hand just after he had taken the oath of office in Bogota as interim president of Colombia. He will retain the post during the illness of President Gomez.—Central Press Canadian.

MISHAPS GAVE ROYAL COUPLE BEST LAUGHS—In Charlottetown, P.E.I., a series of minor mishaps gave the royal couple one of their best laughs of the tour. Princess Elizabeth was presenting the Dominion championship revolver marksmanship trophy to R.C.M.P. Corporal Beatty. First the base fell off the trophy and there was a scramble to pick it up. Then the top fell off and the Princess nearly collided with those who again scrambled to retrieve it. But a good time was held by all and the trophy was finally presented.—Central Press Canadian.

GENERAL "IKE" IN HIS FAVORITE ROLE—Like all grandfathers, General Eisenhower dearly loves to relax with his grandchildren and he did just that when he visited his son John and family at Fort Knox, Kentucky, before proceeding to Washington to confer with President Truman. When the general arrived in U.S. from Europe, he parried all political questions fired at him by newsmen, insisting that there was nothing on his agenda "but just plain business".—Central Press Canadian.

Manoeuvrability

The ability to manoeuvre on ice wins hockey games and nicknames, as shown by Max "Twinkletoes" Bentley of the N.H.L. Toronto Maple Leafs.

The nickname part is relatively unimportant. "Butches" can win hockey games too. But they also need manoeuvrability. Brawny Butch Bouchard showed that with the Montreal Canadiens. He has learned the knack of moving his bulky body into the paths of rushing forwards with resulting bruises to the forwards and control of the puck.

Star hockey players like Bouchard and Bentley have found their ability to manoeuvre aptly in their own positions invaluable aids.

The ability to skate into scoring or defensive positions is not a born talent. It is the result of practice—not skating practice alone but a thorough study of control skating. That means cutting, not from one direction but from and to all directions.

One of the most important aspects of control skating in hockey is the cross over. It is found that some stars can reverse, cross or change direction instantaneously. Combined with speed and the ability to stick-handle they generally are the stars who have most goal scoring opportunities.

The cross over is nothing more than cutting corners—getting to an awkward situation quickest in the best possible shape to utilize a break. To be effective a player must be able to cross both to his right and his left.

The ideal training program or workout for the hockey player who wishes to utilize his corner cutting abilities to best advantage is a square skating exercise. For the exercise beginners, a 40 foot square is best. It can easily be formed with four chairs, pucks or even snowballs. As manoeuvrability is increased the square should be decreased, first to 30 feet then to 20 feet.

The skater moves first to the right and then to the left. After timing his swing around the square he probably finds turning in one direction takes one or more seconds more than the

swing the other way. That then, is an immediate fault to be practiced until it is corrected.

As the swings around the square become faster the skater should develop fluid ease in cutting corners and changing directions. With that ease comes manoeuvrability which pays off in goals for forwards and effective checks for defensemen.

Studies of National Hockey League forward's performances indicate that most ice speed-merchants take one second longer to complete a tour of the 40 foot square—to their weak side. But as each deficiency was pointed out to the player by the infallible stop watch he devoted extra efforts toward manoeuvrability in that direction.

The result: improved performance on both sides of the rink, smoother cross overs and more effective play in the goal zones.

In the Hockey Handbook, a 160,000 word instructional guide written by Lloyd Percival, an entire chapter is devoted to the subject of skating and its development. This book can be obtained from Sports College for \$3.50 plus 10c postage.

Many other valuable services, including special instructional literature in all sports, is available from the College. There is no membership fee. To join, write Sports College, Box 99, Toronto 1, Ontario, and mention this newspaper. Sports College on the air is heard every Saturday over stations CBW, CFBP, CBK and CBX.

Cattle Have Their Day At Fair

City girl Audrey Arnold admits she is envious of the permanent wave displayed by the 1800-pound Hereford bull at the Royal Winter Fair in Toronto. Marvin Treffry, Portage La Prairie, Man., is the hairdresser and owner of the bull.—Central Press Canadian.

Retired Engineer Presented With First Time Sheet

FERNIE, B.C.—When John D. Garbutt retired after 47 years as engineer on the Fernie, Morrissey and Michel Railway, the company presented him with his first time sheet, handed in for April, 1905.

For 33 days and two hours work he had received a wage of \$74.25. "I lived pretty good on that," Garbutt said.

RETURNS TO FIRST SEAT

KAMSACK, Sask.—Edwin J. Johnson was Kamsack's first mayor in 1907. Now he's again in the mayor's seat, winning the post in a recent civic election.

A Mohammedan is permitted by law to have four wives.

World Happenings Briefly Told

Immigration to Israel dropped to 5,000 in October, lowest since the program for bringing Jews to this country began three years ago.

Viscount Alexander has become a governor of the Dominion Students' Hall Trust, parent body of the London House Association of Canada, it was announced in Toronto.

More than 3,000 persons gathered at the Will Rogers Memorial in Claremore, Okla., to pay homage to the memory of the late humorist on his 72nd birthday anniversary. Rogers was killed with Aviator Wiley Post in a plane crash near Fairbanks, Alaska, on August 15, 1935.

When a burning tar barrel sent billows of smoke into the Sir William Dawson School at Picton, N.S., the teachers and pupils showed benefits of fire drills. The whole building was emptied in one minute and 30 seconds.

Mrs. Eric Packard, wife of the vicar in Witton, England, volunteered to take over a 13-mile postal woman's route for two weeks so the regular postwoman, Marion Bowes, could have a holiday. Mrs. Packard gave her salary to charity.

Two Sydney, Australia, seamen are planning to fulfil a life ambition by exploring tiny Rapa Island 670 miles south of Tahiti. John Fillylove and Captain Jack Arnot, former naval shipmates, bought a 40-foot yacht with \$60,000 won in the Irish sweepstakes.

Kitchen Meditations

By JANE DALE

SUNDAY OF BYGONE DAYS

It isn't long ago, it seems, Since we were children small, When we used to get a five cent piece To buy a treat; that's all! We had a bath before the fire On Saturday night for sure; We wore stout boots for everyday And clothes which would endure. We shined our shoes for Sunday School— And rubbed them till they shone, When it came near time to go Our best clothes we put on. We had to change to second best As soon as we came home And once the dishes were all washed We were allowed to roam. We walked sedately with our friends And picked flowers by the way; We never dreamt of playing ball— It was not that sort of day. Yet, now, on looking back it seems Those days were far from dull; We played so hard most all the week We were glad of Sunday's lull!

Weekly Tip

WET FUR

If the fur collar or coat has become wet, do not try to dry it by the heat of a fire, as this will cause the skin to become brittle and the hair to fall out. Shake the fur thoroughly to get out the moisture; then hang up to dry.

Urges Development Of Historic Sites

PRINCE ALBERT, Sask. — The Prince Albert Historical society has been urged to develop more historic sites.

Campbell Innis of North Battleford, Sask., Saskatchewan representative of the Historic Sites and Monuments Board, spoke at a meeting here.

He said the society should search out district sites, important in the history of the area.

RECRUITS FOR WOODS

PRINCE ALBERT, Sask. — More than 500 men in northern Saskatchewan have signed contracts to spend the winter working in the timber in northwestern Ontario. 2961

Papers Of Saskatchewan's First Premier Placed In Archives

Walter Scott's Letters and Records Depict the Evolution of Province

REGINA.—Walter Scott, Saskatchewan's first premier, was a meticulous preserver of his papers and records. He kept not only his correspondence with political leaders in the early years of the century, but left a huge collection of photographs, pamphlets, maps, calling cards, and even a record of his golf scores.

Recently the Scott papers, including some 25,000 items of correspondence, were presented to the archives of Saskatchewan by Miss Dorothy L. Scott of Winnipeg.

Scott was instrumental in the creation of Saskatchewan and Alberta as provinces, and in 1905 headed Saskatchewan's first government. His papers throw light on a wide variety of subjects connected with the west's early political, social and economic development.

Scott's Saskatchewan career began in 1886 when he came to Regina at 19 to assist C. J. Atkinson in publishing the Regina Journal, a rival of N. F. Davin's Regina Leader.

Later he became associated with J. K. McInnis in publishing the Regina Standard. In 1894 he became publisher of the Moose Jaw Times and the next year succeeded Davin as editor of the Regina Leader.

The foundations of his political career were laid in his forthright editorials on western problems and aspirations, and in 1900 he was nominated—and elected—by the Liberal party in western Assiniboia. He defeated his rival, Davin.

He sat at Ottawa for five years, then returned west to head the Saskatchewan government for 11 years, until 1916. He died in 1938.

Scott's letters include correspondence with Sir Wilfrid Laurier and other leaders of the era.

Provincial Archivist Lewis H. Thomas said the collection will be of immediate value to persons preparing studies of various phases of early provincial administration. It is also expected that in the future a biography of the premier, based on these papers, will be undertaken.

The correspondence contains material on the building of the Saskatchewan legislative building in Regina, the founding of the University of Saskatchewan at Saskatoon, immigration promotion, liquor guarantees, agricultural credit and election

campaigns.

During recurrent ill health, Scott took many trips abroad and he used these absences to study administrative and economic developments in the countries he visited with a view to their adoption in Saskatchewan. In this way he contributed to the ferment of new ideas and political experiments which were a feature of Saskatchewan life prior to the First World War.

The papers now are being classified and indexed by the archives staff. The bulk of the collection will be preserved in the archives office at the University of Saskatchewan, but certain pictures and documents have been earmarked for permanent display as soon as historical museum facilities are available in Regina.

GEMS OF THOUGHT

GOVERNMENT

What government is the best? That which teaches us to govern ourselves.—Goethe.

Mankind will be God-governed in proportion as God's government becomes apparent, the Golden Rule utilized, and the rights of man and the liberty of conscience held sacred. —Mary Baker Eddy.

No man is good enough to govern another man without that other's consent.—Abraham Lincoln.

There are differences of administration, but the same Lord. And there are diversities of operations, but it is the same God which worketh all in all.—I Corinthians.

The real democratic idea is, not that every man shall be on a level with every other, but that every one shall have liberty without hindrance, to be what God made him.—Henry Ward Beecher.

He who governs by moral excellence may be compared to the polestar, which keeps its place, while all others bow toward it.—Confucius.

Quick Canadian Quiz

1. What Canadian city is North America's largest producer of boots and shoes?
2. What province had the highest birth rate last year?
3. Canada produces what percentage of the world's newsprint?
4. What English-born artist became Canada's leading historical illustrator?
5. In 1950 how many people immigrated to Canada and how many emigrated from Canada?

Answers Found In Another Column

Helpful Hints

Often a nervous headache can be relieved with a cup of moderately strong tea in which two or three slices of lemon have been infused.

When darning stockings, avoid making knots in the thread, as they are hard on the feet. A knot is unnecessary if the end of the darning cotton is moistened to prevent its slipping through.

Clean the telephone regularly with a soft rag wrung out of warm suds, and then rinse with a damp cloth, and finally polish with a dry cloth. The mouthpiece should be cleaned with a cloth dampened with peroxide, or some other odorless disinfectant, so as to sterilize it as well as clean it.

Q. How can I avoid burning custard while boiling?

A. Add a half-teaspoonful of cornstarch to the custard. Another good thing to remember is that a little salt added to the custard will prevent drying and caking in the pot, and will also improve the flavor.

ANSWERS TO QUICK QUIZ

ANSWERS: 5. 73,000 immigrants, 25,000 emigrants. 3. 54 per cent. 1. Quebec. 4. The late C. W. Jefferys. 2. Newfoundland.

(Material supplied by the Editors of Quick Canadian Facts, the handbook of facts about Canada.)

PRINCESS ELIZABETH MODEL—When Princess Elizabeth arrived at Dorval Airport to begin her Canadian visit, she wore black suede oxfords which have since been duplicated by a Canadian manufacturer. Bound to be popular in Canada, the Princess Elizabeth model, (above), is available in black or color, a suede, six-eyelet tied oxford with scalloped topline and delicate cutout design on vamp and quarter.

Popular Economizing Plan

New Blankets From Old Woollens

With the high cost of living stretching household budgets to the limit, Canadian housewives today are increasingly quick to take advantage of money-saving opportunities. One of the most popular methods of economizing on hard-pressed budgets is proving to be the "new blankets from old woollens" plan.

Under this plan, which is perhaps not as well known as it should be, housewives simply gather together old, used woollen articles such as socks, underwear, sweaters and other garments and ship them to such concerns as the Fairfield Woollen Mills in Winnipeg. There, special machinery has been developed to reclaim the wool fibres from old garments; the fibres, surprisingly enough, still being essentially strong and sturdy. These fibres are cleansed and further strengthened by special processes, and new sheep's wool is added.

The wool is then ready to be fashioned into entirely new products—blankets, bedthrows, crib blankets, comforters, auto robes, floor mats and even the "Convoy Coats" which are so popular today.

By saving the worn-out woollens which inevitably accumulate around the house, instead of discarding or burning them, the housewife is able to save many dollars on the regular price of new woollen products. Small wonder, then, that the "new blankets from old woollens" plan is attracting the attention of increasing numbers of bargain-conscious housewives across Canada.

LOSES SAFETY RECORD

SHERMAN, Conn.—This community of 550 population has had its first highway fatality since the advent of the automobile. It lost its title as "the safest" of Connecticut's 169 towns when a New Milford woman was killed in a smashup.

Establishes One-Section Deer Sanctuary

MINNEDOSA, Man. — Minnedosa fish and game association has established a one-section deer sanctuary three miles north of Moore Park village. Land owners agreed to permit no hunting on their land for a period of five years. Association members recently completed posting land out of bounds to hunters.

The sanctuary will provide a refuge for cows and calves to save them from being hunted to extinction. Game men say this will ultimately improve hunting in this district.

SMILE OF THE WEEK

BUSINESS

The clergyman felt annoyed to find that an old gentleman fell asleep during the sermon on two consecutive Sundays. So after service finally he asked the boy who accompanied the sleeper into the vestry:

"My boy, who is that elderly gentleman you attend church with?"

"Grandpa."

"Well, if you will keep him awake during my sermon I'll give you five cents each week."

For the next two weeks the old gentleman was attentive to the sermon. The third week, however, found him soundly asleep again.

The vexed clergyman sent for the boy. "Didn't you promise to keep him awake if I paid you five cents a week?"

"Yes, but grandpa now gives me a dime not to disturb him."

AHEAD OF TIME

FORT ERIE, Ont.—A late fall has produced an early Easter here. Warm weather brought a large Easter lily to full bloom and produced buds on two other plants in the garden of Mr. and Mrs. Ben J. Burnett.

British battleship, Royal Sovereign, was the first dreadnaught. It was built in 1857.

: Selected Recipes :

Chicken Pie makes fine, filling fare these cold, crisp nights! Serve it for Sunday dinner, or take one to the church supper.

CHICKEN PIE

One fowl (4 to 5 lbs.) disjointed, 1 bay leaf, 2 tsp. salt, few grains pepper, dash celery salt, 1½ tsp. pure monosodium glutamate, 2 or 3 cups boiling water, 1 lb. small white onions, 1 bunch carrots, sliced, 6 tbsp. flour, 6 tbsp. cold water, 1 tsp. prepared horseradish, biscuit dough.

Place fowl in deep kettle; add bay leaf, salt, pepper, celery salt and 1 teaspoon pure monosodium glutamate. Add enough boiling water to cover. Simmer 2 hours or until fowl is tender. Meanwhile cook onions and carrots separately, adding ¼ tsp. pure monosodium glutamate to each vegetable.

Remove fowl and drained vegetables to large, shallow baking dish; strain broth in kettle; measure out 3 cups. Add vegetable waters to the broth, to make 4 cups in all, adding more water if necessary. Add flour, mixed smooth with cold water; cook over low heat, stirring, until thickened; add remaining monosodium glutamate and horseradish; pour over fowl and vegetables. Roll biscuit dough ¼ inch thick; cut with chicken-shaped cookie cutter. Arrange on baking dish. Add bits of raisins for eyes, if desired. Bake in hot oven, 25 to 30 minutes, or until biscuits are golden brown. Yields 6 to 8 servings.

National League

Hockey Notes

On Scoring the First Goal

It used to be that the team that scored the first goal in a game usually went on to win the contest. However, this hockey axiom hasn't much of a case thus far in the 1951-52 season. After the first 35 games of the season were written into the record book, it shows that the team that scored the first goal went on to win the game 16 times. On 13 other occasions the team scoring first went down to defeat. Six times the team scoring the initial tally ended the game in a stalemate with their opponent.

Look Out for the Scots

Scotland is fast becoming a producer of hockey talent. Three players in the National Hockey League first saw the light of day in the land of the heather. The trio of Scots parading in the N.H.L. are Adam Brown of Boston and New York's two Jims, Conacher and Ross. Brown was born at Johnstone, Conacher at Motherwell and Ross at Edinburgh. With the exception of Canada, Scotland has been the birthplace of more N.H.L. players this season than any other country. Ray Barry, Boston and Pete Babcock, Chicago, born in the U.S.A., Pentti Lund, Boston, born in Finland and Jim McFadden, Chicago, born in Ireland, are the only players other than the three Scots not born in Canada.

Two Jewish Players in N.H.L.

For years the National Hockey League lacked a player of Jewish extraction, but the 1951-52 season finds not one but two Jewish players in the League. They are Hy Buller of New York Rangers and Larry Zeld of Detroit Red Wings. Both are defensemen and both were born in Montreal. Buller was brought up in Saskatoon, Sask. Alex Levinsky and Max Kaminsky are other Jewish players who performed in the National League back in the thirties.

Only Seven Left

Only seven players who started the 1950-51 season with the Boston Bruins are with the club this year. The holdovers are Milt Schmidt, Woody Dumart, Bill Quackenbush, Murray Henderson, Ed Sandford, Johnny Peirson and Lorne Ferguson. Since the start of last season they have acquired a new goalkeeper, Jim Henry; two defensemen, Hal Laycoe and Gus Kyle; and seven forwards, Bill Ezinicki, Vic Lynn, Dunc Fisher, Pentti Lund, Adam Brown, George Sullivan and Ray Barry.

Will Have Puck Mounted

Maurice Richard will have the puck fired into the Detroit net for Goal No. 300 mounted. Just as soon as the puck entered the net with Richard's 300th N.H.L. goal, Sammy Babcock, veteran N.H.L. linesman, scooped up the puck and presented it to the Rocket. It's sure to be a treasured memento for Richard.

Barry Born 5 Miles From Garden

Boston Bruins' new forward, 23-year-old Ray Barry, was born less than five miles from the Boston Garden. This really makes him a home-brew and is something unusual for a United States club, having a player on its roster who was actually born in that city. Barry learned his hockey in Canada, however, and starred last year for the Edmonton Flyers in the Western Canada League.

Tallest Players in League

Jim Ross, rookie defenseman of the New York Rangers, and Bud MacPherson, Montreal Canadiens' rear-guard, are the tallest players in the National Hockey League. Each stands six feet, three inches in their stocking feet.

Missed First Chicago Game

Joe Farrell, 75-year-old publicity director of the Chicago Black Hawks, missed seeing his first game since the Black Hawks entered the National Hockey League on Sunday, October 28. A severe cold kept him in bed. Farrell had witnessed every game the Hawks had played in Chicago since the 1926-27 season, the time when Chicago, Detroit and New York Rangers came into the National Hockey League.

Breaks Nose Second Time This Season

Big Allan Stanley of the New York Rangers broke his nose on November 4 in a game against Detroit. It happened when he attempted to check Gordie Howe. This was the second time in two weeks that Stanley had broken his nose. It was fractured first in a game on October 20 in Toronto.

WALKING GOOD EXERCISE

Walking is excellent exercise for everyone — it cures cold feet, hot heads, pale faces and bad tempers.

OUR COMPLETE SHORT STORY—

CHANCE ENCOUNTER

Irma Had the Qualifications, But Someone Was Always Just a Jump Ahead of Her.

by PAMELA LEE

SEE that every moment is occupied. No odd corner left unfilled. Pre-empt it's fun. Talk so that you won't hear that other voice that says you're lonely.

Each morning Irma Tinsdale made out a list of Things To Be Done. It gave her pleasure to tick them off. They didn't really matter, yet she kept to schedule. She was the mainstay of committees. Nothing big, just one to be relied on.

The first order. It lay smooth on the top of the pad. She tore it off. One, two, three carbons. She inserted them deftly, saw that the edges were even, and with an adroit movement he order was in the machine. Just like every other order had been for the last seven years.

A failure. Why? She had the qualifications, but someone else had always been just one jump ahead. And the men she'd liked, they'd always passed her by. She was capable—she could have run a home...

She was tired of the office. But supposing she left? She had seniority here, even if she was typing orders. A pension too, when it was needed.

She was a little stout, with fine lines round her eyes, and her hair was swept up in a roll. If she had been a successful business woman it might have been different. If she had been successful at anything for that matter. Her painting, perhaps she might have got somewhere with that, if she had tried harder. She'd wanted to be an artist. Once. So long ago it almost frightened her to remember. Now she painted glasses

and vases. Some she gave away at Christmas and the best she kept. But even they could not comfort her today. There was no one to whom she really mattered. She tried to take a grip on herself, but the tears were already trickling down.

Miss Kreuger looked over with alarm. "Miss Tinsdale, are you feeling well?" Irma reached for the typewriter cover and pulled it over the machine. "I've a bad head. I think I'd better go home."

Miss Kreuger looked worried. "You can't go home alone, let me get someone to go with you, or call a taxi."

"No, thank you," said Irma, rising. She walked out dabbing at her face with her handkerchief. She collected her coat and took the elevator. Stepping outside, a curious change took place in her. She wasn't Irma Tinsdale any more. She was people, all sorts of people, in all the streets in all the world. Walking home, she went straight to the little cupboard where she kept her work. She knew what she was going to do. Sell up, start again. She'd begin with the glasses and vases. She wrapped each carefully and placed them in a bag. She'd take them down to the gift shop and see if they'd buy them.

Elation filled her as she hurried down to the street car. She could see one approaching and she ran. Suddenly her foot caught. She flung out her arms to save herself, but it was too late and she went down with a thud. A man stopped to help her up. She was too winded to speak and could only point to her bag. He picked it up and felt inside.

"Broken," he said, "I'm afraid they're all broken."

Irma stared, stricken. To have sold them would have been different, but to lose them. She felt a hand on her arm and she found herself in a nearby cafe.

The glare from the fluorescent lighting beat into her eyes. It threw no kindly shadow, nowhere to hide her face, hide the tears, hide the years. The straight-backed wooden alcoves were leather seated. She looked at the man opposite. She could feel a piece of hair straggling down the side of her face, her hat was crooked, but she didn't care any more.

He was smiling. "Some coffee will do you good," she nodded.

"What did you have in your bag?" "Glasses and vases," she said slowly. "I paint them. It's silly, isn't it?"

"Why? I think it's rather nice. I used to paint myself... once. But when my wife died there was no one else to appreciate it but me... so, I don't paint any more."

Irma suddenly saw a little man, a little plump, a little bald, but with eyes that twinkled... and were kind, and he had a button on his coat hanging by a thread. Almost without thinking she reached over and it came off in her hand. He looked down a little ruefully.

"I'm rather lazy, I'm afraid," he paused. "By the way, my name's Johnson, Herbert Johnson."

Suddenly she felt better. Perhaps it was the coffee. Herbert Johnson took Irma to her door. He looked at her little garden. "Needs digging. I'll do it over for you if you like, Sunday."

Irma hesitated. "If you've any more buttons that need sewing, I'll..."

"Would you do that?" said Herbert Johnson.

"Why, sure," said Irma. And a warm glow started to stir inside her, as she watched his rotund little figure disappear down the street.

Now Using Pounds And Pence

(National Defence Photo)
Posted to England with the R.C.A.F.'s 410 fighter squadron are these Saskatchewan airmen. They'll be using pounds and pence over there and, as shown here, the difference from the Canadian dollar comes up for discussion between Leading Aircraftman S. D. Beach, of Trossachs, Sask., (left), and Aircraftman 1st Class W. R. Atton, of Cut Knife, Sask.

: Western Briefs :

Grows Fig Trees

LANGLEY PRAIRIE, B.C.—Alec Forrest grows juicy figs right in his own backyard in this Fraser Valley town. It is believed the only fig tree in British Columbia producing in large quantity and good quality. He planted the tree as a sapling 12 years ago.

Discarding Ancient Rules

CALGARY.—Dr. H. S. Baker, of the University of Alberta, speaking to a group of teachers here, urged them not to be afraid of discarding ancient grammatical rules in favor of accepted modern usage.

Ducks Recuperating

VANCOUVER.—Fifty wild ducks are recuperating from bad hangover at Francois Lake, B.C., after getting boiled on the mash from a bootleg distillery hidden in the woods.

To Eliminate Rail Crossings

EDMONTON.—The city of Edmonton has started negotiations with the Canadian National Railways looking to elimination of 21 railway level crossings in the city.

Safety Tests To Be Compulsory In Alberta

EDMONTON.—Failing to get results on a co-operative basis, Provincial Secretary Gerhart has set a Jan. 2 deadline by which all passenger cars and motorcycles in Alberta must have been tested and affixed with an official provincial safety tester.

Legislation was passed last March, making annual safety tests compulsory in Alberta. All cars and motorcycles must be tested annually by July 1, but because this was the first year of the program the July deadline was not enforced.

Only about one-third of Alberta's 160,000 car owners have taken their vehicles through the compulsory tests being conducted by 1,500 approved stations at garages and service stations.

It has been stated unofficially that cars that fail to pass the safety tests will be removed from the roads by police.

DUE FOR FINE WEATHER OR WILD GOOSE IS CRAZY

YORKTON, Sask.—A woman shopper in Yorkton reported that a wild goose was sitting on a nest of eggs in a small ravine near her home at Sturgis. "It either means we are due for fine weather or that goose is crazy," she said.

Moths have been reported over the ocean nearly 1,000 miles from land.

Seen Everything

DRUMHELLER, Alta.—Fire Chief William Guterson said "Now I've seen everything," after a blaze was extinguished on the roof of the water tank at nearby Rosedale.

Detectives Blushed

VANCOUVER.—Two blushing detectives recently watched a blind man sell artificial flowers to a policeman in civilian attire and then told him he would be summonsed for selling without a civic licence.

Pioneer Answers Roll Call

MOOSE JAW, Sask.—One pioneer who came to Moose Jaw in 1882 answered the roll-call at the 56th annual old-timers' rally here. The only one arriving that year to attend the meeting, he was Arthur L. Davies, 91.

To Distribute Margarine

REGINA.—Saskatchewan Federated Co-operatives in co-operation with the Saskatchewan Dairy Pool will manufacture margarine at Saskatoon for distribution through co-operative stores, President George Urwin said.

Importing Butter "National Shame"

OTTAWA.—Senator R. B. Horner (PC—Saskatchewan) told the senate it was a "national shame" that Canada was forced to import 40,000,000 pounds of butter while farms lay idle and decaying in her western agricultural basin.

If dairying in the west were not encouraged, he said, the day might come when the west will "be getting powdered milk from eastern Canada." The west might have a lot of wheat, but it had too little milk.

Do You Know That...

The last issue of the small silver five-cent coin was in 1920. Only those dated 1921 are valued by collectors, who will pay \$10 and up for each one, depending upon its condition. Their value is due to the fact that fewer than 50 of them ever reached the public.

Heroic Act Of Dying Mother Saves Children

THE PAS, Man.—The story of a heroic mother's dying act which saved the lives of her four young children came to light recently in this northern Manitoba town.

The mother, Mrs. Maggie Bailey, 35, suffered an internal hemorrhage while her husband was away from their lonely trapper's cabin, about 200 miles north of here. She feared she would die before his return and bundled the four small children into bed with her.

When the husband, Fred Bailey, returned next day, he found her dead. But the children were safe. They ranged in age from three months to five years.

He bundled them into a dog sled and took them 28 miles to Thicket Portage, 175 miles north of here on the Churchill railway, where he reported the mother's death to R.C.M.P.

The body of the mother has been brought out for burial.

The one-room log house where she died was a typical northern trapper's cabin—small and isolated, miles from neighbors and a base for trapping operations which sometimes take men away from home for two or more days at a stretch.

NEW MAYOR TO SELL EDMONTON FAR AND WIDE

EDMONTON.—A dapper young man of Ukrainian descent took over as Edmonton's mayor and vowed he'll "sell the city far and near". At 37, William Hawrelak is the second-youngest mayor in Edmonton's history. In the recent civic election he ousted former Mayor Sid Parsons by a landslide majority.

FOR SALE

LITTLE NEWS ITEMS OF LOCAL INTEREST

Mr. and Mrs. Ed Martin expect to leave next Thursday for Couits where Ed has accepted employment with H. H. Smith & Son, a Canadian and U. S. brokerage firm.

An I.O.D.E. pot luck supper honoring departing members was held Monday evening in the Legion hall. Members and their husbands enjoyed dancing and a laugh provoking contest destined to bring out the hidden artistic talents of those present.

Mrs. Jack Barr, I. O. D. E. Regent, presented a silver bon bon dish to Mrs. Ruby Mortimer, past regent, and an I. O. D. E. silver spoon to Mrs. Wilf Skerry. Both members expect to leave in the near future for their new homes in Calgary and Didsbury respectively.

Mr. Claude Cressman, who also leaves shortly to take up residence in Calgary, was presented with a silver spoon as a token of appreciation for the many and varied services rendered to the Carbon branch in their activities during the past few years.

Oscar Gackie suffered a stroke Friday evening of last week and is now a patient in Drumheller hospital.

Mr. and Mrs. Morris Switzer and Patti were Sunday visitors with relatives in Calgary.

Gordon Pugh of Drumheller was a weekend visitor in Carbon at the home of Mr. and Mrs. Earl Ohlhauser.

Mr. and Mrs. Harry Hunt, Patsy Poole and Francis Kaughman motored to Drumheller Sunday, where they attended an accordion concert in the Legion hall.

Mrs. Harry Kerr of Sarnia, Ont., is visiting at the home of her parents, Mr. and Mrs. A. R. MacAlpine.

Mr. and Mrs. Jeff Philpott of Brooks visited Tuesday afternoon with relatives in Carbon. Mrs. Philpott is the former Agnes Skerry.

FOR SALE—Circulating Heater, \$15. Apply at Carbon Chronicle office.

CARD OF THANKS

The Carbon Home and School Association wishes to extend its sincere thanks to the people of Carbon and district for the many generous donations of food for the recent chicken supper and also for their wonderful co-operation in attending the event and making it a success. A special "thank you" is extended to all who assisted in preparing and serving the supper, and to Mr. Holvik for his kind contribution of a turkey which was raffled during the evening.

FOR SALE—Small Beach Range; Couch, with back; Flat Irons; Electric Iron; 2-burner Hot Plate; Small Drop-leaf Desk. Apply to Mrs. Ruby Mortimer, phone 16, Carbon. 1c

SALESMAN WANTED — Good opportunities for hustlers. Rawleigh men wanted for nearby districts. See C. W. Poole, Box 284, Carbon, Alta., or write W. T. Rawleigh Co. Ltd., Winnipeg. 47 4tc

NOTICE

Synopsis of By-Law No. 207
Village of Carbon

Every occupant, and in case there is no occupant, the owner of the property fronting or abutting on any street where there is a sidewalk, shall keep the said sidewalk free and clear of snow and ice whenever the same shall accumulate thereon, such snow or ice to be removed forthwith.

No person shall sprinkle, spread or place any salt or like substance on the sidewalks with the intent or purpose of melting or dissolving any snow or ice which may have accumulated thereon.

No person shall cause injury to any sidewalk by striking, picking or cutting with any metal instrument whatever, whether engaged in removing snow or ice from such sidewalk or not.

If any person referred to in the by-law neglects or fails to clear the sidewalks as aforesaid, the said village is empowered to remove the said snow or ice and the costs thereof shall be charged against the owner of the property, and in addition to any fine or penalty imposed by this or any other by-law of the Village of Carbon, Alberta.

A Special Message from your B of M manager...

If I were asked to sum up the whole Canadian way of living in two words, I'd say: "Steady Progress". The people of this country seem to combine stability with a go-ahead spirit. This approach shows up in most things we do. Take Canada's first bank — my bank. We have just finished our 134th year, with assets of over two billion dollars. Our Annual Statement is typically Canadian in that it tells of

substantial progress in terms of brass tacks rather than brass bands.
Just three highlights will show you exactly what I mean:

DEPOSITS: Our 1,800,000 customers have \$2,085,187,091 on deposit at 572 B of M branches across Canada. Some of this money belongs to business firms and institutions, but more than half of it is the savings of everyday people.

LOANS: Now at the highest year-end figure in the Bank's history, our loans amount to \$646,368,336. Farmers, fishermen, ranchers and lumbermen borrowed a great deal from us, but we lent money to people in every walk of life and to business of every kind. At that, we had to cut down on many loans we would ordinarily

have liked to make, in order to co-operate with the Government in measures which are designed to combat inflation and help gear up Canada's economy for the defence program.

INVESTMENTS: At the year's end, the B of M had \$976,950,829 of its depositors' money invested in high-grade government bonds and other public securities. These were listed in the Bank's books at a figure not greater than their market value. Our other securities represented mainly short-term credits to industry. The combined total amounted to \$1,108,174,362.

Like Canada, her first bank has gone on from strength to strength in the past year. We believe in being strong because our main job is to protect people's savings. And we believe in encouraging people to save more, too.

In this, as in any other way we can, we are working with Canadians in every walk of life for the steady progress that will give us all a stronger, happier country.

John Barr
